

*LIHEAP Report to Congress for Fiscal Year 2022: Part III. Household Data*  
*Supplemental Tables: Assisted Households with Detailed Footnotes*

**Table III-1a. Number of LIHEAP Assisted Households and States Providing Assistance, by Type of Assistance, as Reported by States, FY 2022<sup>i</sup>**

Type of LIHEAP Assistance	Number of States	Number of Assisted Households
Heating	51	5,129,683
Cooling <sup>ii</sup>	25	824,692
Winter crisis <sup>iii</sup>	25	911,598
Year-round crisis <sup>iv</sup>	27	687,951
Summer crisis <sup>v</sup>	7	174,285
Weatherization <sup>vi</sup>	49	59,180
Any type	51	6,070,331

<sup>i</sup> These data are collected from the *LIHEAP Household Report for FY 2022*. They are current as of June 30, 2023.

<sup>ii</sup> The total number of states providing cooling assistance benefits to households (25) differs from the total number of states that obligated funding to cooling assistance (24, see Table I-6a) because 1 state (North Dakota) assisted households with non-crisis cooling equipment repair and replacement services using funding obligated to emergency cooling equipment repair and replacement but reported such households under cooling assistance.

<sup>iii</sup> The total number of states providing winter crisis benefits to households (25) includes data for households assisted by 3 states (Colorado, Massachusetts, and New Hampshire) that did not obligate FY 2022 funds for winter crisis assistance. Instead, the states provided winter crisis bill payment assistance solely by expediting heating assistance within a statutorily required crisis response timeframe. In addition, the total number includes 1 state (Tennessee) that provided winter crisis assistance and reported funds used for this purpose as obligated for year-round crisis assistance.

<sup>iv</sup> The total number of states providing year-round crisis benefits to households (27) includes data for households assisted by 1 state (Washington) that did not obligate FY 2022 funds for year-round assistance. Instead, the state provided year-round assistance solely by expediting heating assistance within a statutorily required crisis response timeframe. In addition, the total number includes 1 state (Missouri) that provided winter crisis assistance and reported funds used for this purpose as obligated for winter crisis assistance and summer crisis assistance.

<sup>v</sup> The total number of states providing summer crisis benefits to households (7) includes 1 state (Tennessee) that provided summer crisis assistance and reported funds used for this purpose as obligated for year-round crisis assistance.

<sup>vi</sup> The total number of states providing weatherization assistance benefits to households (49) differs from the total number of states that obligated funding to weatherization assistance (47, see Table I-6a) because 2 states (Oklahoma and Tennessee) assisted households with weatherization assistance during FY 2022 using only prior year funds.

**Supplemental Table III-2a. Number of LIHEAP Assisted households, by Type of Assistance and State, as Reported by States, FY 2022<sup>i</sup>**

(Table III-2 with detailed footnotes)

State	Year-Round						
	Heating Assistance	Cooling Assistance <sup>ii</sup>	Winter Crisis Assistance <sup>iii</sup>	Crisis Assistance <sup>iii</sup>	Summer Crisis Assistance	Weatherization Assistance	Any Type of Assistance
Total	5,129,683	824,692	911,598	687,951	174,285	59,180	6,070,331

Wyoming <sup>iv</sup>	8,260	0	7,071	0	0	169	8,439

<sup>i</sup>The data in this table are current as of June 30, 2023.

<sup>ii</sup> A designation of "--" applies to those states that did not provide a separate count for cooling assistance because: (1) their heating assistance household counts include, and cooling assistance counts exclude, households that received combined heating and cooling assistance (Nevada), or (2) households received energy assistance with no differentiation made between heating and cooling assistance (Hawaii). These states reported such household counts under heating assistance.

<sup>iii</sup> Households in winter fuel crisis situations (Alaska, Colorado, Kansas, Massachusetts, and New Hampshire) or year-round fuel crisis situations (Maryland and Washington) were assisted solely through expedited heating assistance. Colorado, Massachusetts, and New Hampshire reported these household counts under winter crisis assistance but reported the funding obligated under heating assistance (Table I-7a). Washington reported these households under year-round crisis assistance but reported the funding obligated under heating assistance (Table I-7a).

<sup>iv</sup> The following states provided emergency heating/cooling repairs or replacements to households as part of their energy crisis benefits. These households are excluded from the crisis assistance counts from Table III-2: California (2,556), Colorado (2,448), District of Columbia (123), Illinois (1,213), Indiana (222), Iowa (957), Maine (10), Maryland (850), Michigan (830), Minnesota (4,845), Mississippi (2,036), Missouri ([Emergency Furnace Repair and Replacement – 64] and [Air Conditioner Repair and Replacement – 173]), Montana (785), Nevada (74), New Jersey (6,237), New York (2,198), North Dakota (911), Ohio (179), Oregon (384), Pennsylvania (10,012), Rhode Island ([Emergency Furnace Repair and Replacement – 63] and [Oil Tank Replacement – 144]), South Dakota (622), Texas (464), Utah (280), Vermont ([Emergency Furnace Repair and Replacement – 471] and [Oil Tank Replacement - 257]), Virginia (2,762), Washington (411), West Virginia (1,402), Wisconsin (322), and Wyoming (293).

<sup>v</sup> Connecticut provided additional crisis assistance to 16,077 households that received Safety Net Assistance.

<sup>vi</sup> The following states provided nominal benefits for SNAP households and reported the number of households assisted. These households are not included in the household counts in Table III-2: Connecticut, 97,149 - \$40 benefits; Maine, 6,776 - \$21 benefits; Massachusetts, 142,630 - \$21 benefits; Michigan, 83,181 - \$20.01 benefits; Montana, 1,047 - \$25 benefits or 5 percent of the amount of a regular LIHEAP benefit; New York, 283,512 - \$21 benefits; Oregon, 10,803 - \$21 benefits; Pennsylvania, 301,229 - \$21 to \$24 benefits; Rhode Island, 42,081 - \$20.01 benefits; Washington 212,600 - \$20.01 benefits.

<sup>vii</sup> Florida provided additional crisis assistance to 705 households that received other crisis assistance, including weather-related assistance.

<sup>viii</sup> Louisiana provided additional crisis assistance to 39,833 households that received COVID-19 Supplemental benefits.

- <sup>ix</sup> Minnesota provided additional crisis assistance to 41,563 households that received arrears forgiveness.
- <sup>x</sup> Nebraska provided additional crisis assistance to 106 households that received an unspecified benefit.
- <sup>xi</sup> Nevada provided additional crisis assistance to 86 households that received Crisis Intervention Program assistance.
- <sup>xii</sup> North Dakota assisted households with non-crisis cooling equipment repair and replacement services using funding obligated to emergency cooling equipment repair and replacement but reported such households under cooling assistance.
- <sup>xiii</sup> South Carolina provided additional crisis assistance to 73 households that received window air conditioners or heaters.
- <sup>xiv</sup> Washington provided additional crisis assistance to 16,556 households that received other emergency services.
- <sup>xv</sup> West Virginia's unduplicated count of households receiving any type of assistance excludes households who only received Emergency Furnace Repair and Replacement and/or Weatherization Assistance because the state has not developed procedures for comparing LIHEAP bill payment assistance beneficiaries with LIHEAP funded weatherization and/or emergency repair and replacement beneficiaries.
- <sup>xvi</sup> Wisconsin provided additional crisis assistance to 8,750 households that received assistance through the Keep WI Warm Fund.
