Over 150%	10.9	5.9	11.4	7.6	4.7	29.4

ⁱ These data are derived from the *LIHEAP Household Report for FY 2022*. These data are current as of June 30, 2023. National percentages are calculated for those states that reported complete data, by type of LIHEAP assistance. Table A-1 in Appendix A indicates the percentages of assisted households for which uniform data are provided. Uniform data on households classified by intervals of the 2021 HHS Poverty Guidelines (HHSPG) were 100 percent for year-round crisis and summer crisis, 97.9 percent for heating, 94.6 for cooling, 73.4 percent for winter crisis, and 97.8 for weatherization assistance. Percent distributions may not add up to 100 percent across income levels due to rounding.

ⁱⁱ Poverty percentages are computed using gross household incomes adjusted by household size. However, there are states that use net household income in determining income eligibility. For those states, the distribution of poverty percentages could be skewed towards the higher end of the poverty level.

ⁱⁱⁱ 1 state (Indiana) was unable to provide income data for households that received heating assistance.

^{iv} 1 state (New Jersey) was unable to provide income data for households that received cooling assistance.

^v 3 states (Missouri, New Jersey, and Tennessee) were unable to provide income data for households that received winter crisis assistance.

^{vi} 4 states (Hawaii, Indiana, New Hampshire, and Texas) were unable to provide income data for households that received weatherization assistance.

ⁱⁱⁱ Households in winter fuel crisis situations (Alaska, Colorado, Kansas, Massachusetts, and New Hampshire) or year-round fuel crisis situations (Maryland and Washington) received expedited heating assistance.

^{iv} The following states provided nominal benefits for SNAP households and reported the number of households assisted. These households are not included in the household counts reported in the table: Connecticut, 97,149 – \$40 benefits; Maine, 6,776 – \$21 benefits; Massachusetts, 142,630 – \$21 benefits; Michigan, 83,181 – \$20.01 benefits; Montana, 1,047 – \$25 benefits or 5 percent of the amount of a regular LIHEAP benefit; New York, 283,512 – \$21 benefits; Oregon, 10,803 – \$21 benefits; Pennsylvania, 301,229 – \$21 to \$24 benefits; Rhode Island, 42,081 – \$20.01 benefits; Washington 212,600 – \$20.01 benefits.

^v Counts and the percentage distributions include households that received combined heating and cooling assistance in Nevada and households that received energy assistance in Hawaii, where no differentiation is made between heating and cooling assistance. These states reported these households under heating assistance.
